Dear Sir or Madam:

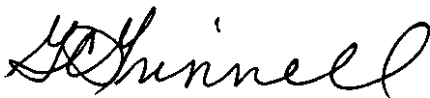

The nearest Time Warner Cable office is 44 miles round trip from my house in a city called Ventura. There is absolutely no phone number available to the public for that office. On several occasions when I went in I asked for a number and was told there was none. This is ridiculous, but only one of several ridiculous things that Time Warner imposes on the customer.

I ordered two small HD cable boxes from someone (Time Warner) in a foreign country who told me they would put it in the order. The delivery person brought two large HD recording cable boxes with 'free' recording for three months. Told the delivery person I didn't want, nor did I ask for recording cable boxes. He told me that was all they had and I had to go to the Ventura office to see if they had small cable boxes without recording.

I made the 44-mile trip twice to see if the small, non recording cable boxes were in; the first time I left my phone number for a call back when the boxes were in, but received no call. I went in the second time and got them. I was also charged for not bringing in the old boxes (had no way of knowing if they were going to have the small boxes). That made three trips of a total of 66 miles.

There should be a local office in Ojai (at least several days weekly); there should be a Ventura Office phone number available to the public; if Time Warner does not have the correct equipment, they should be responsible for bringing out the correct ones (in a timely manner) when they get them in.

Sincerely yours,

G.C. Grinnell

Re: MB Docket No. 10-56

Dear Chairman Genachowski:

As a member of the Texas state legislature, I have taken special interest in the proposed joining of Comcast and NBC Universal. I would like to take a moment of your time to share my thoughts with the Commission and to advocate for approval.

I represent Texas' 144th District, comprised of about 133,000 people. Not only am I a member of the Texas House of Representatives, I also am a small business owner, which means I am familiar with Comcast as an excellent service provider. Additionally my son is a technician for Comcast.

I did not know, however, what a dedicated community partner Comcast is to Houston's philanthropic organizations. Comcast's partnership with Big Brothers/Big Sisters of Houston matches its employees with "littles" to provide mentorship and guidance to our young people. I have been - and remain - impressed by the difference Comcast is making as a jobs and service provider and by being an engaged member of our community.

I hope this letter makes clear my positive impression of Comcast and its lasting influence on my constituents. I urge you to consider this information as you review its transaction with NBC Universal.

Sincerely,

Re: MB Docket No. 10-56

Dear Chairman Genachowski:

I am writing this letter on behalf of Franklin Park Borough, Allegheny County, Pennsylvania. As Borough Manager I interact closely with Comcast on a continuous basis. I find the Company to be a good corporate partner to our community.

Situated northwest of Pittsburgh, Pennsylvania, Franklin Park is a growing suburb with a commitment to making our Borough an outstanding place to raise a family. As such, we host many annual events and activities designed to bring our neighbors together and foster a sense of community. Comcast has demonstrated its commitment to our community by supporting the annual Franklin Borough Community Day and our Scholarship Golf Outing for many years. These events are important to our residents and are part of our commitment to making the Borough a superior place in which to work and live.

Comcast provides quality cable, telephone and high-speed Internet services to Franklin Park borough residents. These offerings are an important resource to our families, students and business owners who need them for enjoyment and business purposes. Also, Comcast provides free cable service to five borough facilities.

Franklin Park Borough is very pleased with the relationship we have with Comcast. Based on the above, I ask the FCC to act in favor of the Comcast and NBC Universal partnership.

Sincerely,

Ambrose Rocca, Manager
Franklin Park Borough

Re: MB Docket No. 10-56

Dear Chairman Genachowski and Commissioners:

Thank you for the opportunity to submit comments regarding the proposed combination of Comcast and NBC. For many years, Comcast has partnered with Knoxville Opera in our efforts both on and off the stage to make our community here in East Tennessee a better place to live. Our organization's positive engagements with Comcast in regards to arts education and outreach provide compelling reasons to write today in support of the company's efforts to combine with NBC.

Knoxville Opera just ended its regular season in which we performed to critical acclaim Gilbert and Sullivan's effervescent *The Pirates of Penzance* and the sublime classics *Lucia di Lammermoor* by Donizetti and *The Barber of Seville* by Rossini. As pleased as we are with this season's performances, we are just as proud of our efforts off the stage. With Comcast's support, we engaged countless numbers of children through interactive music education programs in elementary, middle and high schools, and exciting and informative student dress rehearsals for middle and high school students. In addition to partnering with us to provide these educational programs to kids, Comcast has been instrumental in promoting our Knoxville Opera Rossini Festival Italian Street Fair – voted the city's "Best Festival" – which annually enthralls 25,000-70,000 as downtown Knoxville is transformed into a backdrop for nine hours of opera and jazz, classical and ethnic music, modern and folk dance, artisans and food vendors.

Comcast is an invaluable partner to Knoxville Opera and our community. Their passion for entertainment that educates is palpable and would make a welcome addition to the ethos of NBC Universal. I am hopeful these comments are helpful to your review of the proposed combining of Comcast and NBC. Thank you for your time and consideration.

Sincerely yours,

A handwritten signature in black ink, appearing to read "Brian Salesky", is written over a horizontal line. Below the line, the name "Brian Salesky" and the title "Executive Director and Conductor" are printed.

RE: MB Docket No. 10-56

Dear Chairman Genachowski and Commissioners:

I am writing to highlight the significant contributions that Comcast is making to Maryland communities like ours as you review the company's proposed joint venture with NBC. I believe Comcast's track record shows the joint venture will help the Delmarva Peninsula and all the other local communities they serve. As Comcast has grown, it has shared its success with Salisbury and Wicomico Counties, helping local businesses thrive even during tough times.

The Salisbury Area Chamber of Commerce, as the voice of the business community, has taken the lead in advocating for our region before the local, county and state governments. Our Chamber and its 825 member companies with over 12,000 employees are an active force in our region. We also take our commitment to the quality of life within our area very seriously. We are involved in roadway beautification, community improvement, workforce development and support of public and private educational institutions. Comcast has always been a supportive partner in our efforts.

In addition, Comcast has sponsored several Chamber events including the annual Salisbury Festival, the largest festival in Wicomico County, drawing over 25,000 people for three days of activities. Local executives also serve on several of our committees and are integral to the work of the Chamber. In fact, Comcast Spotlight Manager Ernie Colburn will serve as the Chamber's President next year.

Comcast's services allow businesses to hook up to fast broadband service and reach out to their local target markets through effective commercial placements on cable TV. Despite the rural nature of our area, our businesses can compete globally thanks to the support of Comcast business services. Comcast also
